A LETTER FROM DONALD RAINWATER

Fellow Hoosiers,

For nearly 12 months, Hoosiers around the state have been bridled with the burden of executive orders handed down by one individual, Governor Eric J. Holcomb. Not only have the governor's executive orders negatively impacted the lives of our families, our neighbors, and our friends, but they are constitutionally unsound.

Following the conclusion of the 2020 gubernatorial election, I founded [Liberty Is Essential PAC](#) to continue the never-ending effort to preserve Hoosiers' individual rights and to work to restore Indiana to a constitutionally limited government.

Liberty Is Essential PAC stands for the little guys against the big guys. The opposition against big government in Indiana MUST continue.

The Law of Conservation of Energy says that energy cannot be created or destroyed, it can only be transferred from one object to another. Power and authority work the same way. Government cannot create them; government gets power and authority from its citizens...by consent or force.

The more authority government gets, the less liberty We, The People, retain.

Over the coming weeks and months, my team and I at Liberty Is Essential PAC will continue the work against the establishment political elite in Indiana. We will be reviewing, supporting, or challenging (when necessary) Bills and resolutions proposed by our state legislators.

Utilizing our YouTube station, [Liberty Is Essential](#), we will be educating the public on proposed Bills and resolutions. Subscribers will have the opportunity to hear the Bills and resolutions explained in simple terms. Additionally, our position for support or challenge will be offered.

Moving forward there will be many challenges, but together, we CAN reestablish Life, Liberty, Property, and the pursuit of Happiness as defined by the individual, not the government, for all Hoosiers. We look forward to your continued partnership.

In Liberty,

Donald Rainwater

Legislative Watch for Education

Senate Bill 414 rehashes part of the current Common Core. It attempts to establish a tracking system known as an "early warning system" to identify students who are not progressing adequately toward high school graduation. This system would begin in Kindergarten. Children identified by this early warning system would be pulled out of regular classes, remediated, tested, and basically humiliated. Once identified, their information is forever in the system. This type of tracking system was introduced as part of Common Core many years prior.
